## ABOUT US

Bright Master is a team of professionals with over 10 years of experience, the goal is to design international bakeware.

### Our story

Bright Master's goal is to create a bakery brand that allows customers to enjoy the happiness and joy of cooking. We don't just want our bakeware to functionally satisfy our customers' needs, the whole process from material procurement to production, technology development, testing and sales is managed by a standardized quality control system that strictly adheres to the ISO 9001 standard; we also have very high requirements on the design. We hope that each of our products can become a decorative piece in the kitchen, making the kitchen a warm, beautiful and stylish place in the house. We hope that each product can become a decorative item in the kitchen, making the kitchen a warm, beautiful and fashionable place in the house. We examine the market, record the nearly 7,000 customer's ideas, we personally test the products, personally use the products, and constantly adjust the products according to each customer's ideas, whether it is baking moulds for festivals or chicken roasting pans for ordinary times, and it is the unity goal of all of our staffs to make the customer's ideas into reality.

### our mission

We slow down and listen to our customers as opposed to being able to move quickly to the forefront of the world. Bright Master is more like a family than a company. The founders are a brother and sister who grew up with a love of food and created a brand that aims to bring the joy of making food to everyone. While they are deeply committed to the kitchenware market, they have also started their own families and brought the joy of baking from life to work. We have a humane management system, and our staff always adhere to the "honesty, trustworthiness, diligence, innovation" business management philosophy. We are sincere to our customers and strict to ourselves, we try our best to create nearly 1,000 products, and plan to become a leader in this industry with more than 200 years of history.

[FAQ](#)

[Home](#) / [FAQ](#)

## FAQ

**Q1.** Could you please introduce which countries have you been cooperated with?

Countries in Asia, Europe, South America and North America have cooperated with us. We welcome customers from all over the world to work with us, and long-term relationships are our main goal.

**Q2:** Can we have our own logo on the product/bag/box/package?

Yes, it is available, individual artwork is welcomed. We also support OEM&ODM service if needed and our R&D group is always there to help.

**Q3:** Are your products safe to contact with food directly? How do you guarantee the quality?

Of course. Safety and health are the basic requirements of cookware, and this is something we have always attached great importance to. Our products are certified LFGB, FDA, DGCCRF, CE EN12983, etc. All of our products are PFOA-free.

**Q4:** How about the samples? Is that free?

We could offer free samples if you only need 1~2 conventional products, but the express fee will be on your own. If you need customized samples or samples more than 2 pcs, we might ask for both sample fee and freight.

**Q5:** Can we visit your factory?

Definitely. If you would like to visit our factory, please contact us to make an appointment at any time!

**Q6:** How about the lead time?

Generally, within 30 days after the 30% T/T deposit received and all details confirmed. Exact lead time depends on the quantity of your order and the packaging you required.

**Q7:** How about your payment term?

By T/T in most cases, 30% down payment, and the balance should be paid by shipment. L/C is also acceptable according to your request.
